

Medical Waste Collection Tracking Log (collected by medical building personnel)

California Health and Safety Code § 117915-117946 permits associated medical/hospital buildings to collect and haul for accumulation, treatment, and disposal of appropriately contained biohazard and sharps waste generated by their tenant clinics. Complete the information below and keep this record on site for at least three years.

Medical/hospital building administration who collects medical waste from tenant clinics	
Name:	
Address:	
Phone:	
Registered waste hauler contracted with the medical/hospital building administration	
Name:	
Address:	
Phone:	
Medical building's registered waste hauler	
Phone:	
Registration number:	
Provider/clinic (tenant) where the medical waste is generated and collected from	
Name:	
Address:	
Phone:	

In each respective box below, clinic personnel shall document their initials and the number of biohazard and sharp waste containers collected by the medical building personnel during collection days. Clinic personnel shall initial and sign the bottom of this form for proper identification.
