Nephrology	Encephalopathy	M-7100
Thoracic Surgery	Rib Fracture	M-5545

Customizations to MCG care guidelines 25th edition

The changes below only apply to members of Hoosier Healthwise. The changes below will not apply to Healthy Indiana Plan or Hoosier Care Connect members.

Effective September 1, 2021, the following MCG care guideline 25th edition customization will be implemented:

- Transcranial magnetic stimulation (TMS), W0174 (previously ORG: B-801-T) - Revised Clinical Indications for Procedure and added the following:
 - Need for acute TMS treatment, up to six weeks
 - Acute treatment course needed as indicated by (a) initial course of treatment for major depressive disorder (severe), or (b) relapse of symptoms after remission
 - Continuation of acute treatment, up to six months
 - TMS is considered not medically necessary for all other indications not listed above, including but not limited to, the following:
 - Maintenance TMS treatment
 - Continuation of acute TMS treatment for longer than six months
 - TMS treatment of conditions other than major depressive disorder (severe), including but not limited to, the following: Alzheimer's disease, Anxiety disorders, Bipolar depression, Neurodevelopmental disorders, Obsessive-compulsive disorder, Peripartum depression, Post-traumatic stress disorder, Substance use disorders, Tourette's syndrome.

To view a detailed summary of customizations, visit this [link](#) and scroll down to other criteria section and select **Customizations to MCG Care Guidelines 25th Edition**.

For questions, please contact Hoosier Healthwise provider services at **866-408-6132**, or the number on the back of the member ID card for Medicare Advantage.
