

You're invited!

Anthem Blue Cross and Blue Shield Healthcare Solutions
Medicaid Managed Care

Medication-assisted treatment (MAT) — ECHO series — launching October 6 at noon

This series, held in collaboration with University of Nevada, Reno School of Medicine, aims to support those who are providing or are interested in providing MAT services in Nevada. During the sessions, you will be connected with a MAT team from Northern Nevada HOPES, as well as others across the region to review patient cases, discuss questions or concerns, and collaborate regarding MAT programming. Our goal is to provide an open forum for those working in the field of addiction medicine to share best practices and ideas. If interested, please register at <https://bit.ly/3iXVCjx>.

This program will provide healthcare professionals with training and support to manage substance use issues within the primary care setting. The series will include six weekly tele-ECHO clinics that include a didactic presentation in addition to patient case presentations.

Team members:

- Mark Broadhead, MD, Northern Nevada HOPES
- Danica Pierce, LCSW, Northern Nevada HOPES

Free CME/CEU credit available:
AMA PRA Category 1, Nursing, MFT, CPC, LADC, and Psychology (1.5 hours per session)

Dates and subjects:

- **Program orientation**
