ASSESSMENT AND SCORING					
	DIMENSION 1   Acute Intoxication and/or Withdrawal Potential				
	No withdrawal				
	Minimal Risk of severe withdrawal (ASAM Level 2.1)				
	Moderate risk of severe withdrawal (ASAM Level 2.5)				
	No withdrawal risk, or minimal or stable withdrawal (ASAM Level 3.1)				
	At minimal risk of severe withdrawal (ASAM Level 3.3 or 3.5)				
	ASAM LEVEL 3.7 ONLY: Patient has the potential for life threatening withdrawal				
	(must meet at least two of the six dimensions, at least one of which is within dimension 1, 2, or 3)				
	<b>ASAM LEVEL 4.0 ONLY:</b> Patient has life threatening withdrawal symptoms, possible or experiencing seizures or DT's or other adverse reactions are imminent				
ASSE For m	Provide brief summary of the member's needs/strengths for Dimension 1(OR ATTACH CLINICAL NOTE WITH ASAM ASSESSMENT):  For members with an Opioid Use Disorder, please describe how you have assessed the need for and offered medication assisted treatment (MAT):				
ASAN	Level:				
	le all supporting clinical documentation to justify your assessment in this dimension and your recommended Level (via attachments).				
	DIMENSION 2   Biomedical Conditions/Complications				
	· · · · · · · · · · · · · · · · · · ·				
	None or not sufficient to distract from treatment (ASAM Level 2.1 or 2.5)				
	None/stable or receiving concurrent treatment – moderate stability (3.1, 3.3, 3.5)				
	Require 24-hour medical monitoring, but not intensive treatment (3.7) <b>ASAM LEVEL 4.0 ONLY:</b> Severe instability requires 24-hour medical care in licensed medical facility. May be the				
	result of life threatening withdrawal or other co-morbidity				
Provide brief summary of the member's needs/strengths for Dimension 2 (OR ATTACH CLINICAL NOTE WITH ASAM ASSESSMENT):					
ASAN	Level:				
Provide all supporting clinical documentation to justify your assessment in this dimension and your recommended ASAM Level (via attachments).					
	DIMENSION 3   Emotional/Behavioral/Cognitive Conditions				
	None or very stable (ASAM Level 1.0)				
	Mild severity, with potential to distract from recovery; needs monitoring (ASAM Level 2.1)				
	Mild to moderate severity; with potential to distract from recovery; needs to stabilize (ASAM Level 2.5)				
	Non or minimal; not distracting to recovery (ASAM Level 3.1)				
	Mild to moderate severity; needs structure to focus on recovery (ASAM Level 3.3)				

	Demonstrates repeated inability to control impulses, or unstable with symptoms requiring stabilization (ASAM Level 3.5)					
	Moderate severity needs 24-hour structured setting (ASAM Level 3.7)					
	Severely unstable requires 24-hour psychiatric care (ASAM Level 4.0)					
	Provide brief summary of the member's needs/strengths for Dimension 3 (OR ATTACH CLINICAL NOTE WITH ASAM ASSESSMENT):					
ASAM	l Level:					
	de all supporting clinical documentation to justify your assessment in this dimension and your recommended I Level (via attachments).					
	DIMENSION 4   Readiness to Change					
	Readiness for recovery but needs motivating and monitoring strategies to strengthen readiness, or needs ongoing monitoring and disease management (ASAM Level 1.0)					
	Has variable engagement in treatment, lack of awareness of the seriousness of substance use and/or coexisting mental health problems. Requires treatment several times per week to promote change (ASAM Level 2.1)					
	Has variable engagement in treatment, lack of awareness of the seriousness of substance use and/or coexisting mental health problems. Requires treatment almost daily to promote change (ASAM Level 2.5)					
	Open to recovery but requires structured environment (ASAM Level 3.1)					
	Has little awareness of need for change due to cognitive limitations and addition and requires interventions to engage to stay in treatment (ASAM Level 3.3)					
	Has marked difficulty with treatment or opposition due to functional issues or ongoing dangerous consequences (ASAM Level 3.5)					
	Poor impulse control, continues to use substances despite severe negative consequences (medical, physical or situational) and requires a 24-hour structured setting (ASAM Level 3.7)					
Provide brief summary of the member's needs/strengths for Dimension 4 (OR ATTACH CLINICAL NOTE WITH ASAM ASSESSMENT):						
ASAM	l Level:					
Provide all supporting clinical documentation to justify your assessment in this dimension and your recommended ASAM Level (via attachments).						
	DIMENSION 5   Relapse, Continued Use or Continued Problem Potential					
$\sqcup$	Minimal support required to control use, needs support to change behaviors (ASAM Level 1.0)					
	High likelihood of relapse/continued use or addictive behaviors, requires services several times per week (ASAM Level 2.1)					
	Intensification of addition and/or mental health issues and has not responded to active treatment provided in a lower levels of care. High likelihood of relapse, requires treatment almost daily to promote change (ASAM Level 2.5)					

	Understands relapse but needs structure (ASAM Level 3.1)			
	Has little awareness of need for change due to cognitive limitations and addition and requires interventions to engage to stay in treatment (ASAM Level 3.3)			
	Does not recognize the severity of treatment issues, has cognitive and functional deficits (ASAM Level 3.5)			
	Unable to control use, requires 24-hour supervision, imminent dangerous consequences (ASAM Level 3.7)			
	de brief summary of the member's needs/strengths for Dimension 5 (OR ATTACH CLINICAL NOTE WITH I ASSESSMENT):			
ASAM	Level:			
	de all supporting clinical documentation to justify your assessment in this dimension and your recommended Level (via attachments).			
	DIMENSION 6   Recovery/Living Environment			
	Supportive recovery environment and patient has skills to cope with stressors (ASAM Level 1.0)			
	Not a fully supportive environment but patient has some skills to cope (ASAM Level 2.1)			
	Not a supportive environment but can find outside supportive environment (ASAM Level 2.5)			
	Environment is dangerous, patient needs 24-hour structure to learn to cope (ASAM Level 3.1 or 3.3)			
	Environment is imminently dangerous, patient lacks skills to cope outside of a highly structured environment (ASAM Level 3.5 or 3.7)			
	de brief summary of the member's needs/strengths for Dimension 6 (OR ATTACH CLINICAL NOTE WITH I ASSESSMENT):			
ASAM	Level:			
	de all supporting clinical documentation to justify your assessment in this dimension and your recommended Level (via attachments).			
	DOCUMENT THE FOLLOWING IN THE BOXES BELOW. SUPPORTING CLINICAL INFORMATION MAY BE ATTACHED TO THIS FORM.			
1. Describe how the member is progressing under the current treatment plan.				
2. Document the revised treatment goals.				

3. Document the discharge plan/disposition. Include discharge level of care, agency name and any coordination that has been done with the transition provider. A full comprehensive discharge plan is required to complete this service request.  For members with an Opioid Use Disorder, please describe the discharge plan for medication assisted treatment (MAT), including scheduling appointments with outpatient MAT providers.			
When is the projected discharge date from this level of care?			

For members with an Opioid Use Disorder, your signature indicates that the provider has:

- Educated the member that MAT is the standard of care;
- Performed an assessment that specifically addresses MAT with specific recommendations; and
- Documented how member will receive access to MAT for both withdrawal management and maintenance, including coordination of access when clinically indicated.
