

Know your members' options

Find support.

Help your pediatric members find the care they need with Virginia Medicaid mental health services.

Virginia Medicaid mental health services offer many options to children and adolescents for support:

- **Find the right support:** Virginia Medicaid mental health services offer many community-based treatment options including crisis services, family supports services, applied behavioral analysis (ABA) services, substance use disorder, and intensive in-home supports.
- **Connect with care:** Care coordination through HealthKeepers, Inc. can assist in linking your pediatric members with services including:
 - Therapeutic day treatment (TDT).
 - Intensive in-home services (IIH).
 - Multisystemic therapy (MST).
 - Functional family therapy (FFT).
 - Applied behavior analysis (ABA).
 - Mental health partial hospitalization program (PHP).
 - Mental health intensive outpatient program (IOP).
 - Mental health case management.
 - Mobile crisis response.
 - Community stabilization.
 - 23-Hour crisis stabilization.
 - Residential crisis stabilization.
