

Clinical Utilization Management Guidelines

Virginia | HealthKeepers, Inc. | Anthem HealthKeepers Plus Medicaid products

Attached is a list of the Clinical Utilization Management (UM) Guidelines HealthKeepers, Inc. has adopted.

The full list of Coverage Guidelines and Clinical UM Guidelines are publicly available on the Medical Policy and Clinical UM Guideline subsidiary website. Their purpose is to help you provide quality care by reducing inappropriate use of medical resources.

MCG Care Guidelines are used only for:

- Medical necessity review for medical and behavioral health inpatient review.
- Inpatient site of service appropriateness.
- Inpatient rehabilitation and skilled nursing facility review.
- Outpatient based service or procedure where there is not an established Coverage Guidelines or Clinical UM Guideline.

In addition, American Society of Addiction Medicine® (ASAM) criteria is used for substance use disorder services according to state requirements.

Medicaid state contracts, regulatory guidance, CMS requirements, and our Coverage Guidelines/Clinical UM Guidelines supersede MCG Care Guidelines.

Note: We make determinations of medical necessity on a case-by-case basis in accordance with the definition of medical necessity that is contained within the Medicaid state contract, regulatory guidance, CMS requirements, or in our Medical Necessity Criteria ADMIN.00004.

If the request does not meet established criteria guidelines, it will be referred to a licensed physician reviewer with the appropriate clinical expertise to make a decision.

The Clinical Utilization Management Guidelines (CUMG) below, that are indicated as *new*, were adopted by the Medical Operations Committee for Anthem HealthKeepers Plus members.

To view a guideline, visit Medical Policies and Clinical Guidelines.
