

Cancer Care Navigator

Please note, this communication applies to Anthem HealthKeepers Plus, Medallion offered by HealthKeepers, Inc.

The Cancer Care Navigator (CCN) program is a comprehensive cancer support solution for oncologists and Anthem HealthKeepers Plus members who are at high risk for complications during treatment. This program is aimed at helping to simplify the complexities of cancer care for members.

Practices are given a single point of contact to connect the practice to the right people at HealthKeepers, Inc. so to help lessen administrative burdens. CCN also gives the practice access to the health plan's advanced predictive analytics, helping to identify patients at high risk for complications and, in turn, allowing providers the opportunity to take preventive action and guide targeted interventions.

Patients are provided with a wealth of support through supplemental services (dietitians, pharmacists, etc.), medication adherence assistance, individualized care plans, and goal setting, as well as after-hours telephonic and digital support.

CCN is the ultimate support service to improve the care experience and quality of life to allow patients time to focus on overall health and well-being. Please feel free to reach out to the CCN team at **866-649-0669**.

Email is the quickest and most direct way to receive important information from HealthKeepers, Inc.
