Member Street Address:		City, State, ZIP:	
City, State, ZIP:		Provider Fax:	
		Clinical Contact Name and Credentials*:	
		Phone #	
		* The individual to whom the MCO can reach out to in order to gather additional necessary clinical information.	

Initial ACT admission date:		Average per diem units provided per week:	
Request for Approval of Continued Services:		Retro Review Request? Yes No	
From _____ (date), To _____ (date), for a total of _____ per diem units of service.			
Primary ICD- 10 Diagnosis			
Secondary Diagnosis(es)			
Medication Update			
Name of Medication	Dose	Frequency	For any changes, note if: New, Ended or Changed in dose/frequency from last authorization

- Interventions should seek to achieve or maintain stability in the least restrictive environment possible. Thus, if a provider conducts an intervention in a more restrictive than natural environment (e.g. clinic), part of the intervention should be to translate the use of skills to the least restrictive environment (e.g. community).
- If more than one provider type is involved in the delivery of the service, the provider should list interventions specific to the scope of each relevant provider type in addressing the treatment goal and measuring progress.
- **Dosage of Intervention**
 - Treatment plan should include a description of the frequency in terms of days/hours the providers will deliver the interventions.
- **Treatment Progress**
 - Providers should describe progress in terms of the identified goals and objectives.
 - Providers should describe any alterations in goals or whether new goals have been established and why.
 - Goals and measurement may change over time as the provider's understanding of the problem evolves and/or as the individual may disclose new information or exhibit new behaviors that impact goals.
 - Continued stay authorization requires explanation of how the plan is evolving and how it will support recovery for the individual.
- **Resources and Strengths**
 - The treatment plan should include individual strengths, preferences, and resources that the individual identifies as relevant to their recovery.
- **Barriers**
 - The treatment plan should include a list of ongoing or evolving barriers to treatment, additional resources that would support the individual in overcoming these barriers, and a plan for how to address them.

Section V: RECOVERY & DISCHARGE PLANNING

Discharge plans are an important tool to emphasize hope and plans for recovery. Planning for discharge from services should begin at the first contact with the individual. Recovery planning should include discussion about how the individual and service providers will know that the individual has made sufficient progress to move to a lower, less intensive level of care or into full recovery with a maintenance plan. ***These responses should reflect any updated understanding of the recovery and discharge plan since the last review.***

What would progress/recovery look like for this individual?

What barriers to progress/recovery can the individual, their natural supports, and/or the service provider identify?

Member Full Name:

Medicaid #:

What types of outreach, additional formal services or natural supports, or resources will be necessary to reach progress/recovery?

At this time, what is the vision for the level of care this individual may need at discharge from this service?

What is the best estimate of the discharge date for this individual? _____

By my signature (below), I am attesting that 1) an LMHP, LMHP-R, LMHP-S or LMHP-RP has reviewed the individual's psychiatric history and completed the appropriate assessment or addendum; and 2) that this assessment indicates that the individual meets the medical necessity criteria for the identified service. The assessment or applicable addendum for this service was completed on the following date(s): _____

Signature (actual or electronic) of LMHP (Or R/S/RP): _____

Printed Name of LMHP (Or R/S/RP): _____

Credentials: _____

Date: _____
