

CulturaLink VRI Mobile App

Puts 200 Languages in Your Pocket!

Available for iPad/iPhone at the App Store

CulturaLink's Video Remote Interpreting application puts the power of language at the touch of a finger. With just a tap, you can connect to our team of qualified and experienced interpreters anytime, anywhere on your favorite devices. You can easily provide quality communication that your patients will appreciate.

Access a variety of language interpreters in a matter of seconds. With CulturaLink's Video Remote Interpreting, you can virtually connect anywhere. Healthcare professionals can easily address immediate medical emergencies or routine check-ups by using our convenient and reliable video solution. Patients will receive the exceptional care that a communication barrier once prevented.

Once you download the APP, it will request an Access PIN (department Access Code). The Device ID will be the department name.

Please contact our IT Department at 888-495-0060 with any questions about installing the CulturaLink VRI Application.
