- Ordering and servicing physicians and facilities can use the inquiry feature to find information on any PA with which their tax ID/organization is affiliated.

Advantages of using the ICR

There are many advantages in using the ICR. The ICR improves the efficiency of the PA process:

Interactive Care Reviewer Terms of Use and Disclaimers

Together with IBM we have developed this online system using IBM's Watson technology to allow providers to request utilization management determinations, to assist in assembling required information, and to view an advance determination with information regarding review of coverage for a requested service.

All treatment decisions, and the consequences and outcomes thereof, are the responsibility of the health care provider and the patient, not the Plan. In general:

- Plan deductibles and co-payments apply before final payment can be made.
- Plan maximums and limitations will apply before payment can be made.
- Plan benefits may change upon renewal.

Health care providers will continue to receive a formal written notice of the Plan determinations, which will include specific additional information regarding the administration of benefits for the requested service.

The data provided by this system is protected health information ("PHI") and must be treated with the same care as other PHI that is exchanged during the normal course of business. PHI shall only be used as necessary for patients currently receiving treatment. Health care providers using this system must ensure that use of PHI is subject to the provider's own policies and procedures, in compliance with applicable law. Such use shall further be subject to the terms and conditions of the Provider's agreement with the Plan.

A photograph of a doctor in a white lab coat and stethoscope, sitting at a desk and typing on a laptop. The doctor is holding a white cup in their other hand. The scene is softly lit, suggesting an office or clinical setting. A large blue semi-transparent rectangle is overlaid on the left side of the image, containing the text 'Creating a new request' in white. In the foreground, a pair of black-rimmed glasses, a smartphone, and a pen resting on a notepad are visible on the desk.

Do you want to verify if PA is required? The ICR gives you quick access to that information in most cases. Enter:

- Patient information.
- Diagnosis and procedure information.
- Provider details.

A message will appear indicating whether or not PA is required for most requests. This information can be printed or saved to a PDF and is available later via an ICR search.

Starting a new request on the ICR

- Select **Create New Request** from the ICR dashboard tab.
- Watch the blue bar for messaging. Errors turn the box red.
- Menu bar shows where you are.

The screenshot displays the ICR dashboard interface. At the top, there is a dark grey navigation bar with four main sections: 'My Organization's Requests' (with a document icon), 'Create New Request' (with a pencil icon and highlighted by a red box), 'Search Organization Requests' (with a magnifying glass icon), and 'Authorization/Referral Inquiry' (with a magnifying glass icon). Below this navigation bar is a light blue messaging bar, also highlighted by a red box, containing the text: 'In addition to the subscriber id, please enter at least ONE of the following patient identifiers from Patient First Name, Last Name or Birth Date. Patient Birth Date is recommended.' At the bottom of the dashboard is a horizontal menu bar with six tabs: 'Patient Details' (marked with a blue circle containing the number 1), 'Service Details' (marked with a grey circle containing the number 2), 'Provider Details' (marked with a grey circle containing the number 3), 'Request Summary' (marked with a grey circle containing the number 4), 'Clinical Details' (marked with a grey circle containing the number 5), and 'Case Overview' (marked with a grey circle). Submitted request in ICR

Once a request has been submitted, the dashboard will appear and the new request will be viewable at the top with a *Review In Progress* status. Confirmation that it was submitted and the tracking ID will be viewable in the blue bar.

The screenshot displays the ICR dashboard interface. At the top, there is a navigation bar with four icons and labels: 'My Organization's Requests', 'Create New Request', 'Search Organization Requests', and 'Authorization/Referral Inquiry'. Below this bar is a light blue confirmation message: 'Thank you for submitting the request. Please note the Request Tracking ID 280648'. Underneath the message is a table of requests. The table has columns for Request Tracking ID, Reference Number, Status, Patient Name, Service Date Range, Request Type, Requesting Provider NPI, Submit Date, Created By, Updated Date, and Updated By. The first row of data shows a request with Tracking ID 280648, Reference Number UM304634, and Status 'Review In Progress'. The 'Status' column for this row is highlighted with a red box. Above the table, there are pagination controls showing 'Page 1 of 21' and 'View Results 20', along with the text 'Displaying 1 to 20 of 419 Requests Found'. There are also icons for a search and a print function on the right side of the table header.

Submitted requests will have a *Review in Progress* status. If a user has entered an email address on the *Provider Details* page, they will receive emails when there is activity on a case. Look for cases that are last updated by system and where status is no longer *Review In Progress*. Those cases with updates or a decision can be viewed by selecting **Request Tracking ID**.

- Clear your cache if there seems to be missing fields or if you continue to have errors.
- Remember — admit date for inpatient requests cannot be changed once you submit.

- You can submit your requests from any computer with internet access. We recommend you use Internet Explorer 11, Chrome, Firefox or Safari for optimal viewing.
