

Prior authorization requirement changes effective September 1, 2021 — UM AROW 1837

Effective September 1, 2021, prior authorization (PA) requirements will change for multiple codes. The medical codes listed below will require PA by Anthem Blue Cross and Blue Shield for BadgerCare Plus members. Federal and state law, as well as state contract language and CMS guidelines, including definitions and specific contract provisions/exclusions, take precedence over these PA rules and must be considered first when determining coverage. **Noncompliance with new requirements may result in denied claims.**

PA requirements will be added to the following:

- 0045U — oncology (breast ductal carcinoma in situ), mRNA, gene expression profiling by real-time RT-PCR of 12 genes (7 content and 5 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as recurrence score
- 0153U — oncology (breast), mRNA, gene expression profiling by next-generation sequencing of 101 genes, utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as a triple negative breast cancer clinical subtype(s) with information on immune cell involvement
- 0244U — oncology (solid organ), DNA, comprehensive genomic profiling, 257 genes, interrogation for single-nucleotide variants, insertions/deletions, copy number alterations, gene rearrangements, tumor-mutational burden and microsatellite instability, utilizing formalin-fixed paraffin-embedded tumor tissue
- 81404 — molecular pathology procedure level 5
- 81414 — cardiac ion channelopathies (for example, Brugada syndrome, long QT syndrome, short QT syndrome, catecholaminergic polymorphic ventricular tachycardia); duplication/deletion gene analysis panel, must include analysis of at least 2 genes, including KCNH2 and KCNQ1
- 81439 — hereditary cardiomyopathy (for example, hypertrophic cardiomyopathy, dilated cardiomyopathy, arrhythmogenic right ventricular cardiomyopathy), genomic sequence analysis panel, must include sequencing of at least 5 cardiomyopathy-related genes (for example, DSG2, MYBPC3, MYH7, PKP2, TTN)
- 81518 — oncology (breast), mRNA, gene expression profiling by real-time RT-PCR of 11 genes (7 content and 4 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithms reported as percentage risk for metastatic recurrence and likelihood of benefit from extended endocrine therapy
- 81519 — oncology (breast), mRNA, gene expression profiling by real-time RT-PCR of 21 genes, utilizing formalin-fixed paraffin embedded tissue, algorithm reported as recurrence score
- 81522 — oncology (breast), mRNA, gene expression profiling by RT-PCR of 12 genes (8 content and 4 housekeeping), utilizing formalin-fixed paraffin-embedded tissue, algorithm reported as recurrence risk score

* Availity, LLC is an independent company providing administrative support services on behalf of Anthem Blue Cross and Blue Shield.

Anthem Blue Cross and Blue Shield is the trade name of CompCare Health Services Insurance Corporation, an independent licensee of the Blue Cross and Blue Shield Association. Anthem is a registered trademark of Anthem Insurance Companies, Inc.

AWI-NU-0289-21 May 2021

To request PA, you may use one of the following methods:

- **Web:** <https://mediproviders.anthem.com/wi>
- **Fax:** 800-964-3627
- **Phone:** 855-558-1443

Not all PA requirements are listed here. Detailed PA requirements are available to contracted providers by accessing the provider self-service tool on the Availity* Portal at <https://www.availity.com> or on the provider website at <https://mediproviders.anthem.com/wi> > Login. Contracted and noncontracted providers who are unable to access Availity can call our Provider Services at **855-558-1443** for assistance with PA requirements.
