

Reimbursement Policy	
Subject: Modifier 63	
Policy Number: G-06015	Policy Section: Coding
Last Approval Date: 09/06/2024	Effective Date: 08/28/2020

**** Visit our provider website for the most current version of the reimbursement policies. If you are using a printed version of this policy, please verify the information by going to <https://providers.anthem.com/wi>. ****

Disclaimer

These reimbursement policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement if Anthem) covered the service for the member's benefit plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis as well as to the member's state of residence.

You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology® (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes, and/or revenue codes. These codes denote the services and/or procedures performed and, when billed, must be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our reimbursement policies apply to both participating and non-participating professional providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Anthem may:

- Reject or deny the claim.
- Recover and/or recoup claim payment.
- Adjust the reimbursement to reflect the appropriate services and/or procedures performed.

These reimbursement policies may be superseded by mandates in provider, state, federal, or Centers for Medicare & Medicaid Services (CMS) contracts and/or requirements. Anthem strives to minimize delays in policy implementation. If there is a delay, we reserve the right to recoup and/or recover claims payment to the effective date in accordance with the policy. We reserve the right to review and revise these policies when necessary. When there is an update, we will publish the most current policy to the website.

Policy

Anthem allows reimbursement for surgery on neonates and infants up to a present body weight of 4 kg when billed with modifier 63 unless provider, state, federal, or CMS contracts and/or requirements indicate otherwise.

Reimbursement is based on 100% of the applicable fee schedule or contracted/negotiated rate for the procedure code when the modifier is valid for services performed.

The neonate weight should be documented clearly in the report for the service.

When an assistant surgeon is used and/or multiple procedures are performed on neonates or infants less than 4 kg in the same operative session, assistant surgeon and/or multiple procedure rules and fee reductions apply.

Nonreimbursable

Anthem does not allow reimbursement for modifier 63 billed in the following circumstances:

- For facility billing
- With Evaluation and Management (E/M) codes
- With anesthesia codes
- With radiology codes
- With pathology/laboratory codes
- With medicine codes (other than those appropriate for the modifier)
- With modifier 63-exempt codes
- In addition to modifier 22 (unusual services) for the same procedure code(s)
- With codes denoting invasive procedures that include neonate or infant in the description since the reimbursement rate for the code already reflects the additional work

Related Coding

Standard correct coding applies
