

## **New pregnancy notification process using the Availity Web Portal Benefit Look-up Tool**

As you know, Anthem Blue Cross (Anthem) offers pregnant women several services and benefits through the New Baby, New Life<sup>SM</sup> program. It is our goal to ensure all pregnant members are identified early in their pregnancy so they can take full advantage of the education, support, resources and incentives Anthem provides throughout the prenatal and postpartum period.

We've partnered with Availity, the vendor supporting the Benefit Look-Up Tool you may currently use in your OB office, to send us information about newly identified pregnant women. This new process, including the *HEDIS<sup>®</sup> Maternity Attestation* form, helps connect patients with additional benefits as soon as possible. The reporting process includes a few simple steps.

### **How it works**

When a Medi-Cal Managed Care or L.A. Care member of childbearing age visits the OB office, the office associate is prompted to answer the question "Is the member pregnant?" during the eligibility and benefits inquiry process. If the response is "yes," the system asks about the due date, and a *HEDIS Maternity Attestation* form is generated for the OB office to complete. On this electronic form, providers are asked to provide other important information including the date of the first prenatal care visit, delivery date and postpartum visit date.

This new, user-friendly workflow generates timely information that aids members, providers and Anthem in improving birth outcomes with early intervention and ensures compliance with HEDIS benchmarks.

We are working hard to support providers throughout California in receiving necessary training for this new workflow. If you have specific questions regarding the new Availity maternity attestation process, please feel free to reach out to the Medi-Cal Customer Care Center at **1-800-407-4627** (outside L.A. County) or **1-888-285-7801** (inside L.A. County).

The information in this bulletin may be an update or change to your provider manual. Find the most current manual at:
