

## Access to care standards

Participating providers are responsible for offering members access to covered services 24/7. Access includes regular office hours on weekdays and the availability of a provider or designated agent by telephone after regular office hours, on weekends and on holidays. When unavailable, providers must arrange for on-call coverage by another participating provider. Providers are also required to meet appointment access standards as described below.

### After-hours calls:

- The answering service or after-hours personnel must ask the member if the call is an emergency. In the event of an emergency, the member must be immediately directed to dial **911** or to proceed directly to the nearest hospital emergency room.
- If staff or answering service is not immediately available, an answering machine may be used. The answering machine message must instruct members with emergency healthcare needs to dial **911** or go directly to the nearest hospital emergency room. The message must also give members an alternative contact number so they can reach the primary care physician (PCP) or on-call provider with medical concerns or questions.
- Non-English-speaking members who call their PCP after hours should expect to get language-appropriate messages. In the event of an emergency, these messages should direct the member to dial **911** or proceed directly to the nearest hospital emergency room.
- In a nonemergency situation, members should receive instruction on how to contact the on-call provider. If an answering service is used, the service should know where to contact a telephone interpreter. All calls taken by an answering service must be returned.

### Appointment access

**Note: The next available appointment date and time can be either in-person or by telehealth services.**

Healthcare providers must make appointments for members from the time of request as follows:

**Specialists**

The following guidelines are in place for our specialists:

- For urgent care, the specialist should see the member within 96 hours of receiving the request.
- For routine care, the specialist should see the member within 15 business days of receiving the request.
- A copy of the medical records and/or results of the visit should be sent to the PCP’s office to allow continuity of care.

### Wait times

When a provider's office receives a call from an Anthem Blue Cross (Anthem) member during regular business hours for assistance and possible triage, the provider or another healthcare professional must either take the call or call the member back **within 30 minutes** of the initial call.

When an Anthem member arrives on time to an appointment, the member should be seen within 15 minutes of the scheduled appointment.

When Anthem members and/or prospective members call a physician's office, they should not be placed on hold for longer than 10 minutes.

### Interpretation Services

When a provider's office receives a call from an Anthem member, the provider's office should know where to contact a telephone interpreter to communicate in the member's preferred language.

### Noncompliance

Please ensure that you comply with the standards described; compliance with these standards is a contractual requirement. Anthem monitors compliance through a number of mechanisms, including annual telephonic surveys, to determine if participating provider offices meet the above standards.
